

Year 6		Learning Opportunities		
Literacy & Communication (Speaking and listening, language and literacy)	Write a short story about anything you like! Remember to think carefully about creating atmosphere and interesting characters. Oh and PLEEEASE use capital letters!	Write down your favourite memories of Year Six so far. The more detail the better 😊	Spread some positivity Write a letter to someone in your family or a friend. Include everything positive about them that you can think of. When you are ready, read the letter out to them (you can video chat if they are not with you). <i>I bet you it will make them smile!</i>	Create a revision poster about something we have covered in either, English or Maths (E.g. percentages or maybe subordinate clauses). If it is a maths topic explain how to work it out. If it is English related then maybe give examples of sentences or words.
Maths & Problem Solving (Maths, thinking skills, Logic, Problem solving)	Create your own song or make a stop motion or Scratch animation about how to do BODMAS. https://www.bbc.co.uk/bitesize/topics/z69k7ty/articles/z24ctv4	30 minutes of Sum Dog a week (You can do more if you want).	Calculate the perimeter of different rooms in your house. Bonus: Can you work out the area?	Remind yourself of what a prime number is and make a list of all the prime numbers less than 100.
Science and the Outside environment (Science, PE, Healthy lifestyles, Eco issues and investigation)	Science Find out as much as you can about your heart. Make a labelled diagram if you can.	Healthy Life Style Language is complex, speaking or learning a foreign language gives your brain a good workout. There are lots of Apps such as Duolingo that help with this – why not learn some more French or try Spanish... or whatever takes your fancy!		Healthy Eating Look at some tins in your cupboard and write down how much salt (Sodium), sugar and fat are in them. It will be on the label.
Humanities and Citizenship (RE, History, Geography, Moral & Social and Economic Awareness)	History Create a project about the decades! This was going to be one of our school topics but doing it at home will be lots of fun too. Start with 1900s and end with the present day. See my letter for more info on this.		Be Helpful Find a way to help someone at home. It could be tidying your bedroom the 2 nd time you are asked (bonus points if you do it the 1 st time). Maybe help with dinner or empty the dishwasher.	
Creative Arts (Art, Design & technology, Music, Drama & Dance)	Art Draw the view from your bedroom window.	Dance Make up your own dance and teach a friend – <i>who knows it might go viral!</i>	Art How detailed a self portrait can you draw or paint? Remember about proportion and the shape of your eyes as well as shading.	DT Create a model of the heart (remember to show the different parts of the heart).

I have created this learning grid to give you some inspiration. You can choose which activities to do! You can do as many as you like. You might want to try fill the grid or you might just want to pick a couple of the activities that look the most fun.
